??What was the 'demolition'??

HONOUR ROLL WW1

*Aerial view looking from Parliament down King Edward St.
St Ann's Well Rd continues on from King Edward St.*

"The trolley bus with central market on the left is a 39 for Carlton Post Office! The one outside the Palais is a 40 from Kildare Rd to Wilford Bridge.
The Palais itself is advertising tea dances with Peter Fielding and his music."

The No 40 trolley bus is just approaching the roundabout.
Palais de Danse is to the right and the Central Markets is to the left.
From the city centre we have reached St Anns' Well Road via Parliament St.
We are approaching St Ann's Well Road via King Edward Street

Anecdotes and Memories

THE CENTRAL MARKETS

As we go a little further we pass the bottom end of the Central Market - and here is where we would have got a dish of lovely.....

HOT MUSHY PEAS.

Central Market circa 1960

Tony Miller :

"Great idea Mavis, may I join in your special walk.....Sorry but I can't pass the Central Market without having a pot of Mushy Peas...Salt & Pepper, touch of Mint and a sprinkle of Vinegar, so it's on the corner and up the steps through the doors and there's the counter on the left, luvly M'Duck.

Whilst I am in the market I must take a gander at the pet shop....love the white mice, could have some fun with one of them...but what I really fancy is a grass snake.....to scare the girls....Hisssssss"

THE PALAIS DE DANSE

The Palais De Danse was one of the fabulous ballrooms we had in Nottingham and it was on OUR doorstep!

If we get tired of walking, we can always catch a trolley bus (no 40 or 47). There was a bus stop just around the corner, (note the overhead wires).

Many a delay was caused by the trolley connections coming adrift rounding the corner from King Edward Street onto Parliament St; and the conductor would have to get off and use the long pole to re-attach the trolley.

In recognition of certain memorable individuals and institutions
view the Blue Plaques here

BLUE PLAQUES

HUNTINGDON STREET BUS STATION

Sid Wheeldon:

"Huntingdon Street Bus Station holds particular memories for me. I and lots of others caught the buses on certain Sunday nights to get back to Warminster Army Camp in time for parade Monday morning along with a few female "Camp followers"

Kay Burford :

"The Huntingdon Street Bus Station brings back memories, standing in line waiting for the Skeggy bus to come in, to be taken to my second home beside the seaside."

WILLIAM BOOTH MEMORIAL HALLS (Salvation Army)

S

Sid Wheeldon:

"William Booth Hall across from the Locarno (VIC) & Bus Station. Lots of Parades by Boys Brigade, Cubs, Scouts & Girl Guides, & Salvation Army started from this Location on Sundays etc. Brilliant, not forgetting Sea Scouts as well"

Across from the Salvation Army - William Booth Hall (other side of this roundabout) we see: **The Generating Station/Tram Depot and the Victoria Ballroom** to the left and Bath Street to the right

Sid Wheeldon makes the comment:

"If I had the Money I would Buy this Building (Generating Station) and turn it into a St Ann's Museum, housing any artifacts/photos/memorabilia/ and a life size replica of the down stairs front room, kitchen & scullery of my birth place - 22 Cathcart St. Also show short Films of our childhood & portray what life was like living in St Ann's back in the Day .."

The Generating Station/Tram Depot and the Victoria Ballroom

Trolley bus negotiating the island at bottom of Bath Street.

Bath St - Rest Gardens

Bottom of Bath Street circa 1900s

BATH STREET LED TO THE SNEINTON MARKET

Across the road from the Empress cinema is:

St Catherine's Church - PARISH ROOM AND INSTITUTE

St Catherines, circa 1975

We are standing outside the Empress cinema...if you look over to the corner of Bath Street you will see the **St Mary's Garden of Rest**, formerly the Victoria Gardens. This was once a cemetery (necessitated by the plague (1832) Here you will find the only remaining grave in the park... that of Bendigo the boxer. It is still possible to see many of the old gravestones around its walls but best known is the stone lion which marks the final resting place of William Thompson, 'Bendigo', a champion bare-knuckle fighter

Merrin's Commanders - Victoria Ballroom - 1933

(PHOTO FROM: [Picture the Past website](#))

Victoria Ballroom

The Victoria Ballroom was opened in 1929. It later became the Locarno and then a Bingo Hall.

(TOUR GUIDE PAUSES AT THIS POINT TO FIND A SUITABLE SNAPSHOT....)

Do we stop and go to the movies or shall we go dancing?

"I'm popping into the cinema myself to check out the posters of forthcoming films... perhaps I can find one of Clark Gable...now that poster will become a collectable no doubt... "Gone with the Wind"...mint condition.

THE EMPRESS CINEMA

(1928-1988)

If we go inside this cinema, we can wallow in

ART DECO OPULENCE

The Empress Cinema interior

and a Nottingham hero in Victorian times. Bendigo, baptised in St Mary's, in later life turned from fighting to evangelism.

For full information on the history of this church and burial ground - .here is a very good link - good photos on this site...also the map has very high definition

<http://southwellchurches.nottingham.ac.uk/nottingham-st-catharine/hhistory.php>

Burial Ground:

<http://southwellchurches.nottingham.ac.uk/nottingham-st-mary/xburialgrds.php>

It is worth your while to take out your ipod or laptop at this moment and Google or Wikipaedia his name...makes fascinating reading.

<https://nottinghamhiddenhistoryteam.wordpress.com/2016/02/09/william-bendigo-thompson/>

Bendigo's grave

This picture (right) is of my great X4 grand dad Harry Paulson who lived at number 4 Richmond street (between Colwick street and Bath Street) in 1851. A contemporary and friend of Bendigo - (Bendigo was Harry's trainer at the foresters pub on Huntingdon street). Harry was born in Newark in 1819. He died around 1890. A memorial was paid for by friends and boxing fans, it was erected later in that decade at the general cemetery off Canning Circus where it remains today. (David Warwick)

INTERVIEWS AND STORIES

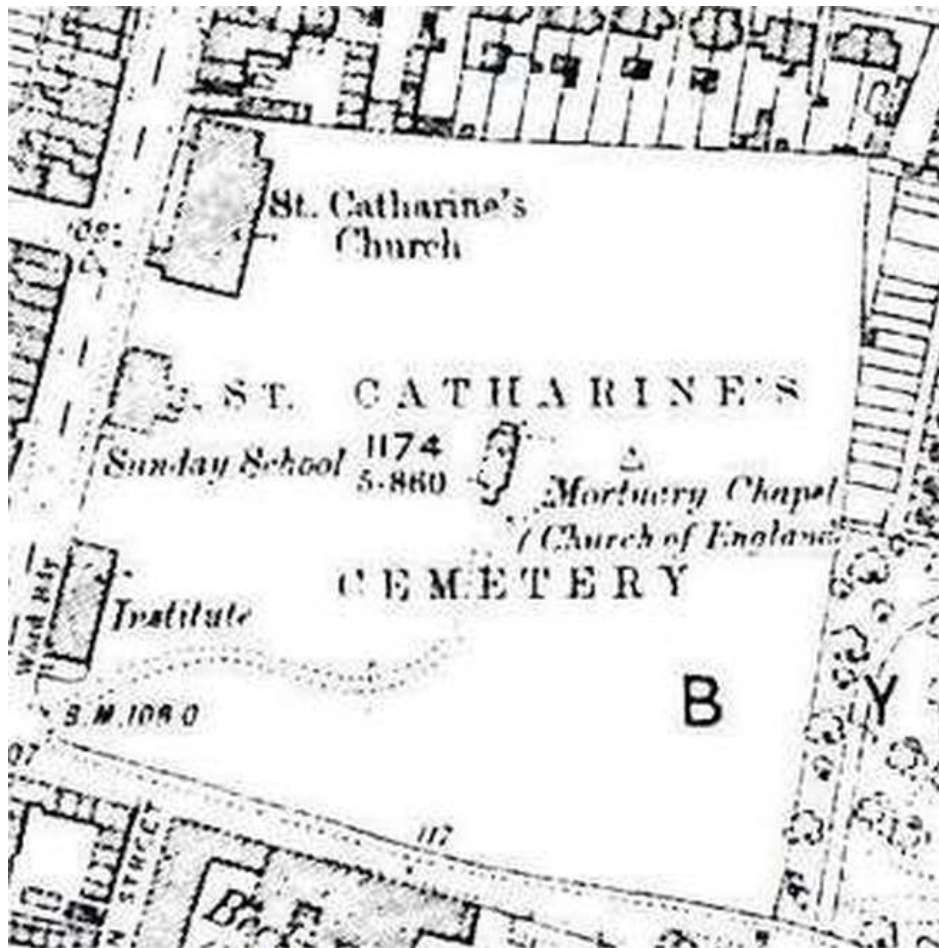

'THE PLACE WHERE I LIVED'

WE WILL REMEMBER

(tour guide whips out a laptop and tries to find a suitable image)

1954 - Movie showing is "A Star is Born" starring Judy Garland and James Mason

Mavis Baker: "I remember sitting in the Empress in sublime anticipation...watching those curtains change colour with the seductive lighting on them.... the music (perhaps Cherry Pink and Apple Blossom Wine.....) ...waiting to be transported into the world of the movies.... South Pacific... "I'll Climb a Stairway to Paradise".... "Seven Brides for Seven Brothers." How I loved the musicals especially. One time we saw the Third Man.... (mum took to see everything except the X rated horror films)."

*Tony Miller : "Can you remember the chap in uniform that was in the foyer, and used to let you in if you had been queuing outside....he used to check your age if you wanted to try and get in for an A film...we used to call him **Mr. Rhubarb**, because he was really tall with a moustache and his uniform was in the traditional red, green, & gold."*

Sid Wheeldon: "what a great Memory for detail you have Tony The chap I recall was Mr Spencer doing that Job. He was David, Kenny & Johnny Spencer's dad. The same man who chased Cappendale around the Science Lab for really Marking David with the Infamous Strap he wielded- too heavy-handed was Cappel with that strap. Nowadays a teacher gets suspended for looking at pupils incorrectly, Cappel would have been Jailed forthwith had he been teaching now."

Pre-empting Sid collecting his best suit for the 100th member celebration of our facebook website, we try to get a glimpse of the pawn shop's gleaming spheres in the distance (but not succeeding yet...we are too far away...)

Sid Wheeldon: "Andersons Pawnshop with the 3 Cylindricals or spheres hanging outside!"

Mavis Baker: " Sid...can you recall where on the road that was?"

Tony Miller:

"Mavis, Past Northumberland St, and just past **Bamford's** on the left walking up Senty, just before Union Rd junction on the left with the "**Coachmakers Arms**" on the corner of **Union Rd**.....

"Have you just found a ticket then Sid....Make sure you get your best suit out and your Granddad's Gold Fob Watch, ready for our 100th member site celebrations.....I will buy you a pint of Shipo's..."

In 1956 just beyond the Empress (towards Curzon St) on the left was:

- 23 OPTICIAN
- 25 PERAMBULATOR DEALER
- 27 ST ANN'S CAFE AND SNACK BAR
- 29 CONFECTIONER

Tour Guide strikes out up the road....

"Just make sure this cultural walk does not turn into a pub crawl...I know you senty's lot!!!" she says with tongue in cheek.

CURZON STREET

Consulting Kelly's directory of 1956 we may see:

GENT'S OUTFITTERS Plunketts

Tony Miller :

"Can I stop at Sid Plunketts to get some white paper collars size 15" - going down the Loccarno Friday night and must have a clean collar, might even get the scissors out and round off the collar ends, to make it look a bit more MOD....."

I think that Syd Plunkett's shop deserves a "Blue Plaque" for his service to the 60s Gents fashion industry...he was born 40 years too early, otherwise he could have been another Nottingham Paul Smith. Good old Syd...his daughter lives in our Village, Margaret.....she could cut the grand opening ribbon at the ceremony, when we fix the plaque..."

Mavis: "what a 'fab' idea'.

Mavis Baker

"Which collar did you choose Tony?"

Tour guide remarks on the type of suit she has noticed the young men wearing in the 1960s

Tour Guide searches for a link for the 1960's fashion conscious amongst us:

CHURCHES

"I used to get off the bus from work at the church: left hand side the shop on the left was a jewellers come pawn shop. Stoppard's smaller shop I think .

Wow often think of the huge Diamond rings in that window second hand for 9 guineas !!! Three times my weekly wage as a junior .. Still got a silver charm bracelet full of charms from there...charms were 3/6 , that's not the ones with a ten bob note in or a pound note !! Had a neighbour who used to buy and redeem pawn tickets, she had some beautiful jewellery .. Bit further up was Mrs Hurt's chip shop and Mr Summers for sweets and ice cream. Little shoe shop good for Welles and plimmies. Then an electrical / telly shop, veg shop on corner of Martin St opposite corner Kings hall , oh what great memories !!!" Susan Carberry:

Here we can also stand and admire [The St Anns Church](#)

Computer generated art by Mavis

Corporation Rd, Chase on left St Anns Church on right

1958

Tony Proctor:

"Taken late-summer (nearly September) in 1958 after a flash flood. It lasted a few hours and resulted in 4/5" rain, and sludge that remained for the rest of the day. The photo was taken from a room over the dry-cleaners on the corner of Livingstone St."

The most extraordinary thing has happened on this virtual tour (taken in 2012):

A note on the flower:

(The common name *Nottingham catchfly* commemorates the former occurrence of *S. nutans* on the walls of Nottingham Castle, and the species was chosen as Nottinghamshire's county flower. Despite this association, Nottingham catchflies no longer occur in either the city of Nottingham or the wider county of Nottinghamshire.)

...standing in the grounds of the St Ann's churchyard has found a rare flower (the Nottingham catch-fly).....Mavis hands the flower to Tony....."I would like to plant this very special and unique Nottingham wild flower here in our very own Garden of Remembrance within the grounds of St. Ann's Church, the very heart of of St. Ann's, as a lasting and growing tribute and

testimony to the many brave young men of St. Ann's who served in World War One during 1914/18 and to the very special few who gave their ultimate sacrifice for our safe future and happiness"

'Never to be forgotten'

Tony:- *"Mavis has produced a fantastic website - street by street along with the names of some of the many young men of St. Ann's who served and fought in the Great War. This document could provide you with an opportunity to begin research of your own. It is an aid for individual research to further investigate any of your own relations appearing on this list from the era of the Great War via the Ancestry web site(which is where their service records were initially identified),thanks Mavis."*

We have paused for some time here at St Ann's Church...the garden is established and many of us are searching our photo albums and exploring our family trees for ancestors who served in the armed forces.

2012 - A search has been made to find the memorial plaque that once was in the chancel of St Anns. Evidence has come to light that it was moved to the HQ of the Boys Brigade on Ransom Rd just prior to these events of 1970.....

An Alley way appears here.....and Tony has some comments to add:

"Does anybody remember the famous McCarthy twin brothers, Decorators & Wall paper hangers, they worked for their Mam & Dad who had a work shop up an alley between Beverley St and Edwin St. next to Howards the butchers. They were both cross eyed and wore thick specs...how on earth they got to match the patterns on the wallpaper, god only knows...they were always running..... and pushing an old pram with all their paint, wallpaper and brushes on the top with their ladders sticking out. They also had a famous brother, Dennis who went on to be a well known. broadcaster on Radio Nottingham."

PHOTO ALBUM OF BOARD SCHOOL

"We have also created a large photo album related to the school...see it here:" <http://www.facebook.com/media/set/?set=oa.247402232026739&>

TONY MILLER adds the comment: ...*"we moved on to St. Ann's Well Rd to 284 opposite the Board school, my Dad took the brave step of opening his first shop, next door but one to Exton's sweet shop, Hughes babywear shop next door, and another second/hand furniture shop Nixons, Dad's shop was a general dealer's.... house clearing etc or more commonly described as a "Junk Shop" it was a start...and he was on his way, packed in full time work as a lorry driver for Billy Bate's down at the W/Sale Market, switched to sewing machines old & new...started trading as City Sewing Machine Supplies, later had three more shops and as a family we all lived behind and above the shop."*

TOUR GUIDE adds *"Yes Tony, we can verify that....in the records the Miller name pops up several times in this area. Looking back to Bombay St we can see a Mr Alec Miller at No 284 - a general draper! And at the bottom of Twells St also is a Miller."*

TED BULLOCK HAIRDRESSER

Ted Bullocks - you can see the razor blade sign above the shop door. This is where you got your Tony Curtis hair cut. In his window he displayed toys and a whole range of products that could be purchased there.

Tony Miller says that he was a real MEAN barber, he would point to the pictures on the wall and say "Do you want a Tony Curtis, a Bob Mitchum, a Burt Lancaster, an Elvis, or a Perry Como?" He would then try and sell you a comb, or a pair of socks whilst cutting your hair but he would NOT cut your hair if you had been to Charlie Halidays the time before.

David Daykin said: Re Ted Bullock. He was the cheapest barber, 1/6d, next up the road was **Bill Easter** at the side of Harry Bramley's cost 1/9d., and then **Charley Halliday** at 2 bob and he had a twin brother and had a photo in the shop of his brother cutting his hair with the comment "who cuts the barbers hair?" Ted had a large mirror in the shop with photos of film stars all over it. The idea was that you picked one out and Ted would make you look like him??? The only trouble was Ted could only perform one hair style , so that's what you got every time. We all used to choose Tony Curtis, with his long curl drooping down his forehead. Ted used to tell us how to get this effect. Take a lock of your hair, spit on your fingers and then twist, twist and twist until you got that effect. When you walked out of the shop and up the road you often met somebody approaching and spitting on their fingers and twisting their hair. " been to Teds,yep ,,, av you,,,yep"" Will tell you more stories about Ted later. A good bloke nevertheless

David Daykin: Ted Bullock - Ted would often cut the back of your neck and would comment " do you know you have a rash on your neck? But Ted was the Dr Phil of senty and could fix this problem. He sent you up the road to **Oldhams chemist** (facing Harry Bramley's), for 2 penneth of peroxide. When you got back in the shop he splashed it on the back of your neck. I thought I saw Lazarus running out of there one day after the treatment!! Again walking up the road and with your neck bent forward to stop it touching your coat collar you would see someone and the comment " been to Teds? ..yep"

Tony Miller Brilliant.....and that's why Ted has achieved our first Senty, "Blue Plaque" award for services to the hairdressing industry and helping to make Tony Curtis as famous as he was....his first model. * * * * *

Tony Dexter said: Barber Bullock Story: Remember classmate Alan Bentley going there one lunch hour for a "Basin Cut" . Came back to school dripping all over his forehead with some of Ted's special grease on mixed with hair clippings. Morley teacher Mr Wilkinson quipped to tell him next time to "Put a Spot and not the Pot".

363 **TACEYS Fish & Chip Shop**

- Tony Miller: Next door to Sir Harry's shop was Tacey's Fish & Chip shop, we used to get our 3p mix from here on our way back home from BB Mr.. was a very nice chap ...always full of fun...he used to have a trick when gave you the change, he did it to all the kid's...he used to conceal the change in one hand and with the other he used to click the coin on the hot stainless steel counter top...then he used to lift the hand where you the change was and then he would give you a wink, and give you the change from under the other hand....it worked every time, I never forgot it and still play the same trick on my grandchildren. His wife Mrs.Tacey was a lovely lady" Been to BB lad's,? I bet you had a good time" she used to say... a real Mum...I think.....but not really sure didn't she later get killed in a tragic car accident....they had a son Howard Tacey, I think he was an only one....I have seen him over the years and I think that he has now retired and moved out to live in France. Tacey's Fish & Chip's lovely M'Duck.....
- Mavis Baker: Mrs Tacey died by falling out of their car when the door fell open as they went round a roundabout on their way to a holiday in Mablethorpe. My family was in Mablethorpe at the time - Harry Bramley's son was there too - he told us about the accident.
- Tony Miller How terrible...looking back she must have been quite young when she was killed 50 ish..what a shame,

367 Easter J W HAIRDRESSER

371 Henson Geo COAL MERCHANT AND HARD CONFECTIONER

- David Daykin remembers:

"Easters barbers, He is the only barber I ever saw who used a cut throat razor to shave someone. The honing of the razor on a strop was quite a skill. The three stooges in the photo are left to right, Paul Lakin of Westminster St, John Stafford of Shelton st, and me of Lotus St. We must have been waiting for the pearly gates of the Queens Arms to open !!!!

379 Teather Mrs Florence CONFECTIONER and home made ICE CREAM. Had a son Michael and daughter Linda.

Tony Miller: Teather's Ice Cream Yum...Yum...Mick Teather their son, was in the Boy's Brigade;e he was a little bit older than us and eventually became an officer in the company. He was a great chap and a well known larger than life character...because he was quite a big lad, with a very big heart....some of the kids used to be cruel and call him names "Fatty Teather" was the favourite, he just used to laugh about it and take it all in his stride and joke about his size....he used to join in all the sports with us and was in particular a very good badminton player...he also used to play the big drum on our Boys Brigade band parades once a month...he loved the BB and was a very good friend, always happy and very good company, sadly he died just a few years ago of cancer at quite a young age...if any body deserved one of our "Unsung Hero Award" it was Mick Teather... God Bless him.

Morley School circa 1933

The Railway Bridge on Wells Road

THE ABOVE MAP SHOWS THE SITE OF ST ANN'S WELL

Once St Ann's Well Station Master's House The Victorian house on the right was originally the home of the station master at St Ann's Well on the Nottingham Suburban Railway (1889-1951). The station, of which there is now no trace, was largely on a wide embankment behind the council houses further down the hill, and the railway crossed The Wells Road a little way to the south on a high lattice girder bridge. The NSR (operated by the Great Northern) lost its passenger service in 1916 in face of competition from the city's trams, but the goods yard continued to supply coal merchants and serve the Somnus bed company until closure. The NSR was promoted by the owners of the Nottingham Patent Brick Company and the house is built of red bricks and terra cotta tiles from its brickyards at Thorneywood and Mapperley. (A more celebrated station built of NPBC bricks is St Pancras.)...source: <http://www.geograph.org.uk/photo/3051158>

Wells Rd Kildare Rd No 40 Terminus. (The houses up on the right are on Porchester Rd).

This photo is taken from Porchester Road by Mike Wright about 1966.
